An Educational Endless Runner Game
Promoting Diabetes Awareness and Healthy Lifestyle Habits

Life Guardian Team
Makerere University
Final Year Project · 2026

1. Introduction

Life Guardian is an educational endless runner game developed to promote awareness of diabetes prevention and management. Players assume the role of a guardian protecting the sacred Baobab Tree by making informed decisions about food and physical activity. Through gameplay, users develop an understanding of healthy lifestyle habits in an engaging, interactive environment.

1.1 Game Objectives

- Develop and reinforce healthy lifestyle habits through interactive gameplay.
- Understand the principles of diabetes prevention and management.
- Maintain and protect the life of the Baobab Tree by making positive choices.
- Earn Healing Dew and unlock achievements to track progress.

2. System Requirements

Life Guardian is designed for Android devices. Ensure your device meets the following minimum specifications before installation.

Requirement	Specification
Android Version	Android 5.0 (Lollipop) or higher
RAM	2 GB minimum
Storage	200 MB available space
Processor	Quad-core 1.4 GHz or faster

Note: Performance may vary on devices that meet only the minimum requirements. A device exceeding these specifications is recommended for the best experience.

3. Installing Life Guardian

Follow the steps below to install Life Guardian on your Android device.

1. Download the Life Guardian APK file to your Android device.
2. Navigate to Settings > Security and enable Install from Unknown Sources if prompted. This is required for APK installations outside the Google Play Store.
3. Locate the downloaded APK file using your device's file manager.
4. Tap the APK file and follow the on-screen prompts to complete installation.
5. Once installation is complete, launch Life Guardian from your app drawer.

Note: *If you are unable to locate the Unknown Sources option, the setting may appear as Install Unknown Apps under individual app permissions depending on your Android version.*

4. Starting the Game

When Life Guardian is launched for the first time, the following sequence will occur:

- The game splash screen is displayed while the application loads.
- An interactive tutorial is presented, introducing core game mechanics and objectives.
- Use the Next button to navigate through each tutorial page.
- Tap I Understand once you have reviewed all tutorial content to proceed to the Main Menu.

Note: The tutorial can be accessed again at any time via the Tutorial button on the Main Menu.

5. Main Menu

The Main Menu serves as the central hub for all game features. The following options are available:

5.1 Menu Options

- Prevention Portal — Access the prevention gameplay path.
- Management Portal — Access the management gameplay path.
- Life Meter — Displays your current health status.
- Healing Dew Meter — Shows the total Healing Dew you have accumulated.
- Avatar Selection — Choose or change your in-game character.
- Achievements — View unlocked and pending achievements.
- Settings — Personalise your game profile.
- Tutorial — Re-access the introductory tutorial.
- Exit — Close the application.

5.2 Life Meter

The Life Meter reflects your current health within the game. It is affected by the food and activity choices you make during gameplay. Keeping it high is essential to protecting the Baobab Tree.

5.3 Healing Dew Meter

The Healing Dew Meter tracks the cumulative rewards you have earned. Healing Dew is used to unlock new levels, achievements, and game content.

6. Avatar Selection

Players may personalise their gameplay experience by selecting an avatar. To choose an avatar:

6. Tap Choose Avatar from the Main Menu.
7. Use the left and right arrow buttons to browse available avatars.
8. Tap Select to confirm your choice.

Note: Your selected avatar will be displayed throughout gameplay and on the results screen.

7. Settings

The Settings screen allows you to personalise your in-game profile. The following options are available:

- Player Name — Enter your name to personalise your profile.
- Daily Food Preference — Select a preferred healthy food to feature in your gameplay.
- Bonus Points — Completing the settings profile earns additional bonus points to get you started.

8. Environment Selection

Before beginning a game session, you may choose the environment in which gameplay takes place. Environments provide different visual backdrops without affecting gameplay mechanics.

9. Use the left and right arrow buttons to browse available environments.
10. Preview each environment before making your selection.
11. Tap Play to confirm your environment and begin the game.

9. Level Selection

Life Guardian features a progressive level structure. Levels are unlocked as players advance through the game.

9.1 Level Progression

- Food Run is the only level available at the start.
- Activities Run becomes available as players earn Healing Dew and complete earlier levels.
- Additional challenge levels are unlocked progressively as players reach milestones.

Note: Earning Healing Dew is the primary means of unlocking new levels. Focus on making healthy choices to accumulate rewards quickly.

10. Prevention Path

The Prevention Path is designed to teach healthy eating habits. Players navigate the game environment, collecting beneficial food items while avoiding harmful ones. This path reinforces the role of nutrition in diabetes prevention.

10.1 Gameplay Objectives

- Collect healthy foods to gain Life Points and protect the Baobab Tree.
- Avoid unhealthy foods, which reduce your Life Points.
- Earn Healing Dew for each successful run and positive choice made.

10.2 Effect on Body Size

- Collecting healthy foods gradually restores your character's body size toward a healthy baseline.
- Consuming unhealthy foods increases body size, reflecting poor dietary habits.
- Speed is not affected in the Prevention Path.

11. Management Path

The Management Path focuses on healthy lifestyle activities and physical wellness. Players collect positive activity items while avoiding harmful habits, reflecting the importance of an active lifestyle in diabetes management.

11.1 Gameplay Objectives

- Collect healthy activity items to increase movement speed and protect health.
- Avoid unhealthy habits, which reduce your character's speed.
- Maintain good performance to safeguard the Baobab Tree.

11.2 Effect on Speed

- Engaging in healthy activities increases your character's movement speed, making the game more dynamic.
- Engaging in unhealthy habits reduces speed, hindering performance.
- Body size is not affected in the Management Path.

12. Healing Dew

Healing Dew is the primary reward currency in Life Guardian. It is earned by making positive choices throughout gameplay and is essential for progressing through the game.

12.1 Earning Healing Dew

- Collecting healthy foods during the Prevention Path.
- Completing healthy activity runs in the Management Path.
- Reaching score milestones and earning achievements.

12.2 Using Healing Dew

- Unlock new game levels and challenges.
- Unlock achievements and in-game rewards.
- Track your overall progress and performance over time.

13. Achievements

The Achievements system recognises and rewards players for key milestones and positive behaviours. Achievements can be viewed from the Main Menu.

13.1 How to Earn Achievements

- Consistently making healthy food and activity choices during gameplay.
- Unlocking new levels by earning sufficient Healing Dew.
- Selecting and personalising an avatar.
- Reaching score milestones across multiple play sessions.

14. Game Results Screen

At the end of each gameplay session, the Game Results Screen summarises your performance.

14.1 Information Displayed

- Final score achieved during the session.
- Life Points earned.
- Healing Dew accumulated.

14.2 Available Actions

- Replay — Begin a new game session immediately.
- Return to Menu — Go back to the Main Menu.

15. Game Over Screen Management

The Game Over Screen is displayed when a gameplay session ends due to depleted Life Points or failure to protect the Baobab Tree. The following information is shown:

- Final score for the session.
- A performance message providing feedback and encouragement.

Note: Review the performance message after each session. It provides useful guidance on how to improve your choices in the next run.

16. Educational Disclaimer

Life Guardian is an educational tool intended for awareness and learning purposes only. It does not constitute, and should not be used as a substitute for, professional medical advice, diagnosis, or treatment. Users who have or suspect they may have a medical condition, including diabetes, should seek guidance from a qualified healthcare professional.

17. Troubleshooting

If you encounter issues while using Life Guardian, refer to the guidance below.

17.1 Game Does Not Start

- Restart your Android device and attempt to launch the application again.
- Uninstall and reinstall the APK file, ensuring the download was not corrupted.
- Verify that your device meets the minimum system requirements listed in Section 2.

17.2 Game Runs Slowly or Lags

- Close all background applications before launching Life Guardian.
- Restart your device to clear temporary memory and free up resources.
- Avoid running other applications simultaneously while playing.

17.3 Progress Not Saved

- Always allow the application to close fully before exiting. Avoid force-stopping the app mid-session.
- Ensure your device has sufficient storage space to write save data.
